

Selected work

NINE CASE FAMILIES

Websites, planning concepts, reporting workflows, business documents, and migration methods.

Independent projects with fictional or synthetic business examples. This overview does not claim commissioned client history.

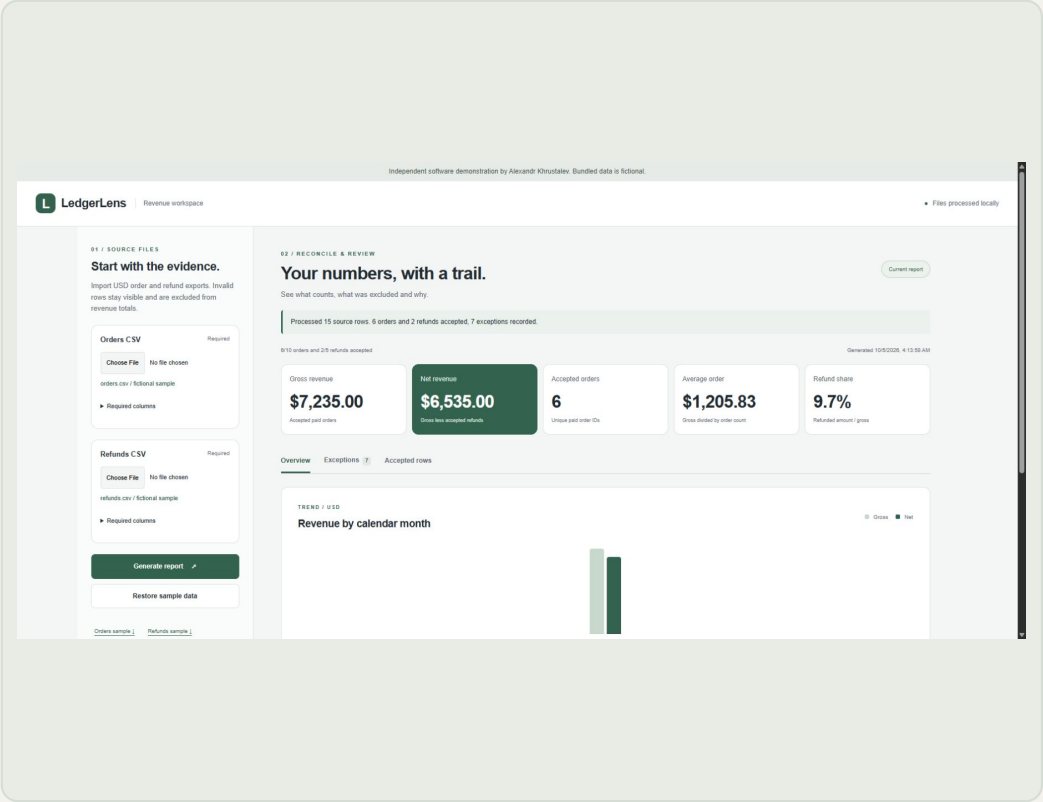

09

INDEPENDENT CASE STUDIES

Public samples with evidence and source links

LEDGERLENS | DEPLOYED CSV REPORTING WORKSPACE

Current deployment screenshot. Bundled example data are fictional.

Presentations and product documents

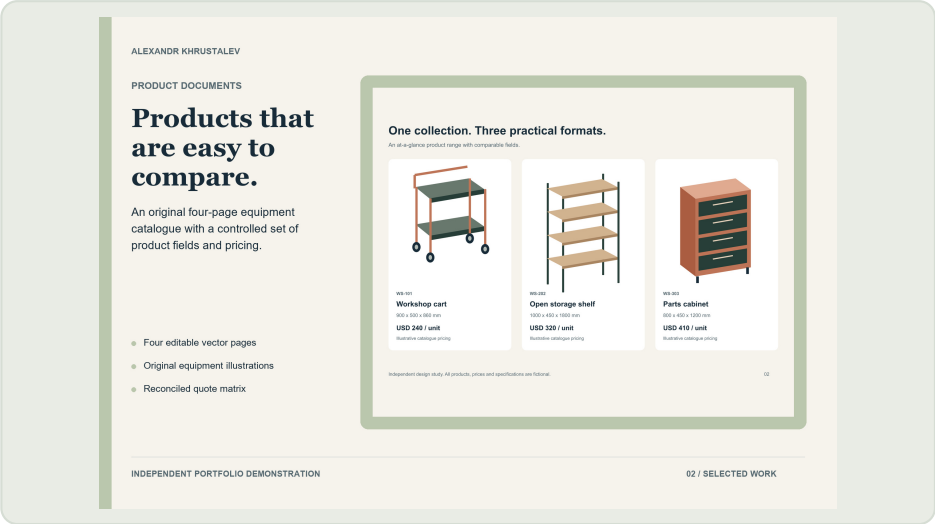

01 PRESENTATION SYSTEM

Northline presentation system

A 15-layout system with an eight-slide executive review, reusable chart and table styles, and a template guide.

Fictional business figures. Native PowerPoint acceptance is not claimed.

[VIEW HUB ENTRY](#)

02 PRODUCT DOCUMENTS

WerkSupply equipment catalogue

A four-page catalogue with original vector product illustrations, comparable product fields, and a reconciled quotation matrix.

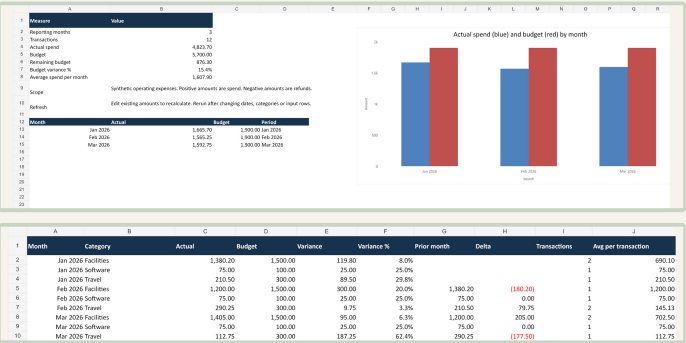

Fictional products, prices, and specifications. Four editable SVG source pages.

[VIEW HUB ENTRY](#)

Reporting workflows

A report that can be checked.

Actual workbook preview images. Fictional totals: spend 4,823.70, budget 5,700.00, remaining 876.30.

Independent demonstration. Fictional or synthetic inputs. Actual work previews.

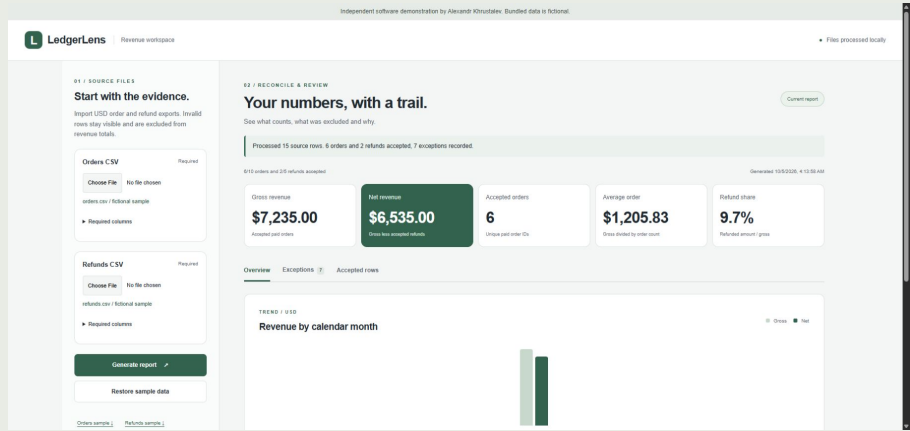

03 REPORTING WORKFLOW

Financial reporting workbook

A CSV-to-Excel expense workflow with input checks, exact-cent totals, monthly and category reports, and budget comparisons.

Fictional single-currency sample data.

VIEW HUB ENTRY

04 DEPLOYED CSV REPORTING

LedgerLens reporting workspace

A deployed CSV workspace for order and refund validation, reconciliation, monthly movement, exception review, and exports.

Current deployed workspace. Bundled example data are fictional.

OPEN LIVE WORKSPACE

Property documents and a planning concept

05 PROPERTY DOCUMENTS

Coordinated property document set

A coordinated property presentation, executive summary, and financing term sheet with consistent figures and terminology.

Fictional assets, assumptions, and financing terms.

[VIEW HUB ENTRY](#)

06 PLANNING CONCEPT

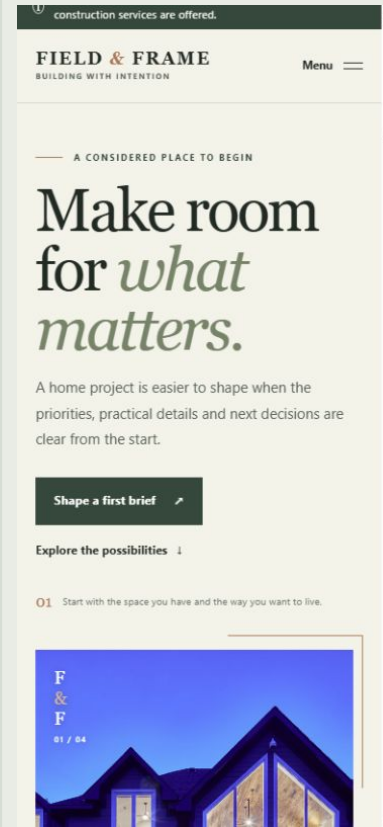

Daybreak planning concept

A self-initiated planning concept with daily and weekly views, editable blocks, overlap checks, a focus timer, and local JSON backup.

Shown as a prototype concept, not a live deployment.

Website and receiving concepts

07 WEBSITE CONCEPT

Field & Frame construction site

A fictional construction website concept with service, process, and FAQ sections, mobile navigation, and a local brief builder.

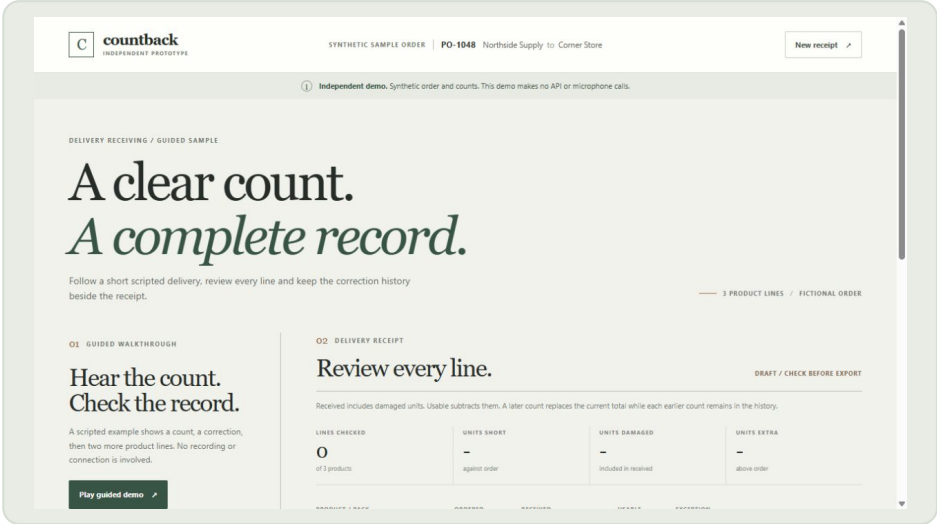

The brief builder prepares a file and does not submit an enquiry.

08 RECEIVING PROTOTYPE

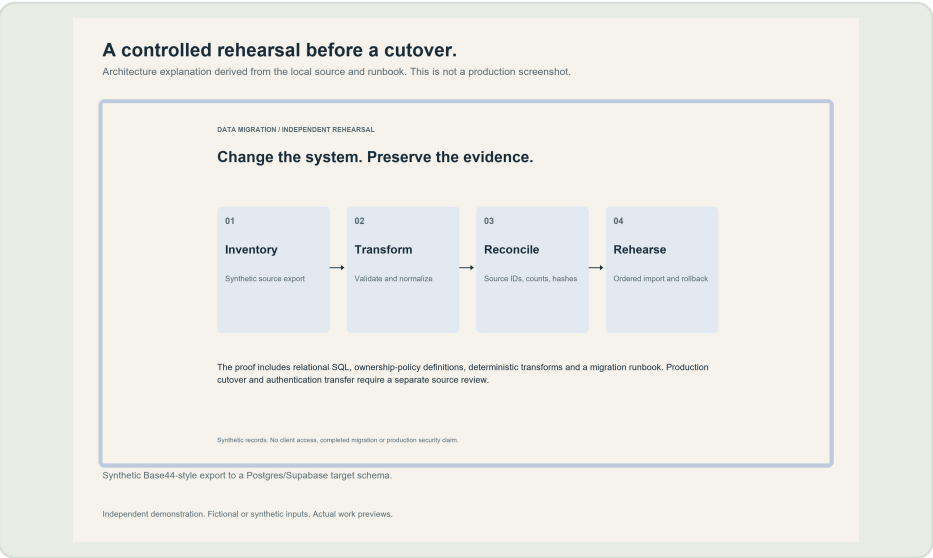

Countback receiving workflow

A synthetic delivery-receiving prototype with carton-to-unit counts, shortage and damage review, and correction history.

The walkthrough is scripted. No live voice or API calls.

VIEW HUB ENTRY

Migration method and scope

09 METHOD REHEARSAL

Deterministic migration rehearsal

A synthetic rehearsal covering schema design, deterministic transforms, reconciliation, and cutover and rollback documentation.

Not a completed client migration or a production screenshot.

SCOPE AND EVIDENCE

Read the work in context

- 01 Independent portfolio examples. No commissioned-client history is claimed.
- 02 Business figures and operating records are fictional or synthetic.
- 03 LedgerLens is the deployed workspace. Daybreak, Field & Frame, and Countback are shown as concepts or prototypes.
- 04 Native PowerPoint acceptance for the presentation source has not been verified.
- 05 Migration material is a synthetic rehearsal, not a completed client migration.
- 06 Field & Frame photo credit and CC BY 2.0 source are linked in this overview.
